- 3 Year Warranty

£324.00

Overview

The only USB-A dual 4K screen docking station to deliver integrated power and charging for most laptops, this solution can keep your laptop, as well as your productivity, humming all day long. The docking station is designed to support across all laptop brands for a broad range of compatibility of peripherals and devices. With four USB-A 3.0 ports (including one that's high-powered for charging devices) plus a USB-C type port and an Audio In/Out port for speakers, mics or headphones, it's easy to customise your workstation. Charging tips are included for compatibility with most major laptop brands, and they're all neatly stored within a removable compartment in the dock (so you can store them in your desk draw if you prefer). Its compact size makes it perfect for tight spaces and VESA slots make it mountable.
